PROFESSIONAL SUMMARY

Final-year B.Tech CSE student with data analytics internships at Codec Technologies India and Maincrafts Technology and web development training with IBM. Skilled in Python, Java, SQL, Power BI and machine learning (scikit-learn, NLP); has built and deployed ML web applications.

EXPERIENCE

Data Analytics Intern — Codec Technologies India | *Jul 2026 – Aug 2026*

- Cleaned and explored real-world datasets; built predictive models in Python — code published on GitHub.

Data Analytics & BI Intern — Maincrafts Technology | *Jun 2026 – Aug 2026*

- End-to-end Superstore dataset analysis using SQL, Excel and Power BI; business reports on sales insights (GitHub).

Web Development Intern — 3Skill Training | *Jul 2026 – Sep 2026*

- Completed a 2-month project-based web development internship, building web projects to professional standards.

PROJECTS

MindSense – Mental Health Detection AI (Team Final-Year Project) | Live: mental-health-detection-aiii.vercel.app

- AI-based mental health detection system built and deployed as a team; resolved deployment issues (library conflicts, Gunicorn, memory optimisation). Tools: Python, Flask, MediaPipe, Render.

Employee Attrition Analysis — Data Analytics Project

- Analysed HR data in Python (Pandas, NumPy, Matplotlib/Seaborn) to identify drivers of employee attrition and support HR decisions. Tools: Jupyter Notebook, GitHub.

Weather Application — Frontend Project

- Responsive weather app fetching live data for a user-entered city via the OpenWeather API. Tools: HTML, CSS, JavaScript, Git, GitHub.
